## Reiki 2 ~ Original Usui Reiki Practitioner ~ Course Outline

Reiki 2 is a natural progression on the Reiki learning path. It can be taken at least 6 months after Reiki 1.

It is advisable to allow this time as the connection with the Reiki 1 attunements can settle and allow time for the adjustment of the higher vibration to take place. Reiki 1 attunement can also be a beautiful light energy and it can be enjoyed as such.

Reiki 2 involves 2 attunements and although it will deepen your experience of Reiki in a more sophisticated way, it awakens the physical, emotional and spiritual levels of ones self. It does lift and ground the emotional level in a subtle way.

This is a practitioner course and Reiki 2 healers are able to practice on the public (providing insurance is held to do so). There are moves to shift this to Reiki 3a but these have not been finalised. Of course if you are already a therapist, you will be able to use Reiki as part of your existing work and insurance will be included, usually in band A.

Reiki is all about you and your personal development. When you share this healing with others it is an added bonus! Reiki 2 will help you to do this.

During the course we will

1. Receive 2 attunements
2. Use meditation & Reiki handholds
3. Discuss legal implications
4. Look at obligations of the Reiki healer
5. The role of counseling and clairvoyance
6. Re-visit any Reiki 1 skills
7. Learn some advanced original Usui techniques
8. Learn 3 symbols to deepen your receptivity & healing.
9. Practice using these and picking up energy with dowsing rods
10. Distant healing & manifesting our goals
11. Learn the Kotadama
12. Reiki Timelines & Self Healing ~ going back to the past & forward to the future

We will also be able to practice our healing skills on each other.

As with all Reiki courses you will have the support of your Reiki master teacher and will have the opportunity to attend regular Reiki shares and groups.

I am sure that you will enjoy your Reiki 2 course.
