

Marlborough School Of Reiki

Reiki 3b ~ Original Usui Reiki Master Teacher ~ Course Outline

This course is taken when you and your teacher feel that you are ready to undertake this responsibility.

It is a 3 day course with a follow up date at present for two more days.

For those Reiki healers wishing to teach, it is preferable to have experience of giving Reiki healing (at least 50 hours of sessions or more).

The person has that something special that will pass on the essence of the magic of Reiki.

Wisdom and the ability to communicate the enthusiasm and light of Reiki to others is more important than intellect and qualifications.

The more people who are able to teach Reiki, the more tolerant and understanding we will be!

A teacher facilitates growth in others and encourages them to be the best they can be!

The student will be able to attend Reiki courses as a teacher helper in order to continue learning. We teach in order to learn, so it is an ongoing experience.

During the course you will learn
